

Oakington C of E (A)
Primary School

First Aid Policy

Rationale

Children and adults in our care need good quality first aid provision. Clear and agreed systems should ensure that all children are given the same care and understanding in our school.

The school has a separate policy for the administration of medicines and the Reporting of Incidents and Accidents.

Purpose

This policy;

1. Gives clear structures and guidelines to all staff regarding all areas of first aid
2. Clearly defines the responsibilities of all staff
3. Enables staff to see where their responsibilities end
4. Ensures good first aid cover is available in the school and on visits

Guidelines

New staff are given a copy of this policy when they are appointed. As part of the induction process new staff are given details of the first aiders in school, are trained in accident reporting and shown where first aid supplies are stored.

This policy is annually reviewed and updated. This policy is written with reference to the Cambridgeshire First Aid Procedure.

Conclusion

The administration and organisation of first aid provision is taken very seriously at Oakington C of E Primary School. There are annual procedures that check on the safety and systems that are in place in this policy.

First Aid Policy Guidelines

First aid in school

At Oakington Primary School, we ensure that there is at least one emergency first-aid trained and one paediatric first-aid trained member of staff in school at all times (during the school day and extended school day). This is to ensure that all areas of the school have at least one competent person present; with sufficient 'spare' to cover off-site visits, part-time staff and as far as possible staff absences.

All teaching assistants, lunchtime supervisors, ASC/BSC staff and the Headteacher are emergency first aid trained, and one teaching assistant is First Aider of the Workplace trained.

In Foundation Stage staff members have emergency first aid training and at any one time there is a member of staff with Paediatric first-aid training.

For each break time the school has nominated first aiders.

When children are taking part in off-site visits, we ensure that a first-aider accompanies all groups. Staff are expected to identify this member of staff when planning any visits. For Foundation Stage visits, we ensure that a paediatric first- aider accompanied the group.

During activities outside of the school day (after school clubs), there is a designated first-aider onsite at all times.

Training

New lunchtime staff members, ASC/BSC staff and teaching assistants are offered training as part of their induction process. The school keeps a register of who is first-aid trained and when their training is valid till. The headteacher is responsible for organising first-aid training.

The headteacher is first aid trained and one member of staff is paediatric first aid trained.

Roles and Responsibilities

The main duties of a first aider in school are:

- To complete a training course approved by the Health and Safety Executive, as required.
- To give immediate help to casualties with common injuries and those arising from specific hazards at school
- When necessary, ensure that an ambulance or other professional medical help is called.

Appointed Persons

The headteacher is the appointed person within the school to take charge when someone is injured or becomes ill and call the emergency services if required. In the absence of the headteacher the senior teachers will carry out this role.

First Aid Facilities

The school has a first-aid medical cabinet, which can be found in the school office and the library in the Annex block. This cabinet contains sufficient first-aid materials to administer first aid as recommended by the HSE.

The school has two travelling first-aid containers used for off-site visits. These are kept in the staff room and contain supplies recommended by the HSE.

Expiry dates of first aid supplies are checked on a bi-annual basis.

Accident and Injury Reporting

All first-aid incidents should be recorded in the first-aid record book. In the case of a head bump staff should speak to the parent/carer concerned. A slip should be completed and sent home. Where a child has a serious injury or injury to the head, the staff member should inform the headteacher or senior teacher who will decide whether parents should be contacted immediately.

All serious injuries should be reported to the headteacher or senior teacher and should be recorded on line.

Calling the emergency services

In the case of major accidents, it is the decision of the headteacher/senior teacher if the emergency services are to be called.

If a member of staff is asked to call the emergency services, they must,

1. State what has happened
2. The child's name
3. The age of the child
4. Whether the casualty is breathing and/or unconscious
5. The location of the school

In the event of the emergency services being called, a member of the Admin staff OR another member of staff, should wait by the school gate and guide the emergency

vehicle.

If the casualty is a child, their parents should be contacted immediately and given all the information required. If the casualty is an adult, their next of kin should be called immediately.

All contact numbers for children and staff are clearly located in the school office.

Approved by Governing Body
